## THE ISLAND

An oasis of comfort, with an unparalleled  
and unrepeatable ecosystem

The island of Albarella, immersed in the **Natural Park of the Po River Delta**, is one of the most elegant and well equipped resorts on the Adriatic coast. In the heart of lushly green vegetation, it offers our guests the opportunity to practice a multitude of open **air activities** (including golf, tennis, horse riding and water sports) to satisfy their diversified needs for leisure and relaxation. Connected to the mainland by a 10 km long, man-made embankment, which is only transitable by holders of a special pass, Albarella is committed to safeguarding the **wellbeing of its guests**, which makes it the ideal destination for enjoyable and relaxing stays. Visitors and guests are brought to a different dimension in contact with nature. We have over 2 million trees and around 150 mostly indigenous tree species on the island, including white poplars (*Populus alba*), after which the island is named, that are part of the **Mediterranean shrubland**. In this protected area deer, pheasants, hares, herons, marsh harriers, black-winged stilts and egrets live in the wild, in symbiotic relationship with man. A stay in Albarella means enjoying one's time in a far away **oasis** which offers the wonderful opportunity to live a different experience from the daily routine.

30

The maximum speed limit  
on the island is 30km an hour

## TRAILS
